FOR VICE PRESIDENT: SCHUYLER COLFAX, OF INDIANA.

THE CITY GOVERNMENT IMBROG-LIO.

If ever a body of men deserved the censure and execution of a community the Demo-cratic members of the Board of Aldermen of this city deserve and should receive it. Their conduct on Mooday evening last, was unpar-donable in the extreme. Having, by trickery, taken possession of a weak-minded man, who was elected by Kenwillian value in the was elected by Republican votes, in the strongest Republican ward in the city, and was the most radical of all Radicals ho was the most radical of all Radicals the time of his election, they manage either ataying away from the regular meetings of a Board, or by absenting themselves whenever a proposition to legislate for the city is cred, to leave it without a quorum, and we for nearly two months prevented the same of a single law or ordinance. In the meantime all the interests of the Adaptive relations and the interests of the Adaptive relation to the same of the relation to the same of the relation to the same of the sam

Indeed, there is starcely a tradesman, mechanic, laborer, or other individual in our midst who is not either directly or removely suffered in comments. ther directly or remotely suffering in conte-

These seven men will be held to a strict accountability for their conduct. The Mayor has succeeded in getting through Congress a full authorizing the issue of books to pay the voting sets of the client of the Councils to carry it into effect. This action should have been taken last Monday evening, and before the advent of another terck our finances would have been in a condition to exitaly the client of our presents of the action of every resilitor also presented a just demand for payment, but it morning cab be lobes the city must go anapproved, creditors ampaid, nutanose unsated, and the inext urgent demands for repairing brighter, streets, alleys, ac, must pass converged.

The Board of Common Council have seted and are acting on important measures, and it seeks but the co-operation of the Board of Aldermen to act all things right. Will this be had, or will they still dofy the will of the people and the interests of the city.

The Fenian meeting called on Tuesday evening for the professed purpose of doing something to add in the liberation of certain parties now imprisoned in England charged with fourceiting relicition in Treiand and condemned to this incarceration because of utterances of their part made in this country, instead of itending to the business for which it was sailed, was turned into a Seymour and Hishr ratification meeting.

such precedings are in accordance with their views, we shall not complain, we only siggest that when they call another meeting of this kind, they should announce it in advance, if they are honest, that it will be held under Democratic auspices, and then all Republicans who sympathize with Ireland in its efforts to occure its ancient pationality will know what to expect, and govern themselves accordingly.

There are thousands and tens of thousands of Republicans who sympathies with Irishmen in their sixupples for Rherty and nationally, but they will not connect themselves with a Fenius movement to be used a bob to the Democratic kite. The speakers on Tuesday excelled had be mode to say in favor of the Bemocratic party where they uttered one for the Fenius prisoners.

M.R. W. MOGER, the Fourth Ward Alderman, was nominated know time since by the Propilers of the city. Welle his ease was pending before the Senate, and he and his friends hoped for confirmation from that body, he demeaned himself in a manner which indicated a re-

Seymour will try to stand upon the doctrines arowed in his Cooper Institute speech and thus cheat the east and the great money centres by fearing to be in opposition to reput diation, but in the west, he is to be understood as theroughly in favor of the Pendleton theory of practical repudiation.

Pendleton knows; and Pendleton owns Seymour and he dictated his nomination.
